

Opportunity to Participate in Research about PKU!

We are looking for parents/guardians to participate in study about PKU

To be eligible:

- Your child is older than 12 months but less than 13 years
- The child has not been on Kuvan in the past 6 months
- Child has classic PKU, not hyperphenylalanemia (mild PKU)
- You're the adult who is primarily responsible for managing your child's PKU

Benefits to you: Help us learn about how clinics can help all families to take care of their children with PKU.

How long does it take? About 30-40 minutes

In appreciation of your time, you will receive your choice of a gift of a lunchbox container for you or your child, or a \$15.00 gift card.

Where does it happen? You decide:

- Your clinic
- At a PKU Walk or other community event
- A place nearby that is convenient to you
- At or near your home

What does it involve?

- Fill out some surveys and answer questions
- Allow us to contact your child's clinic and obtain the latest labs and last clinic report

Interested?

Please look for us in your clinic, or our table at a PKU event,
or contact us to set up an appointment:
