

The Child Neurology Foundation (CNF) is a patient advocacy organization on a mission to serve as the collaborative center of education and support for children and their families living with neurologic conditions.

The Child Neurology Foundation has a Family Support Program to help families and children living with neurologic conditions. Our organization has trained staff to help you with things such as:

- Learning more about a child neurology disorder
- Connecting to disease specific organizations
- Talking to another parent
- Learning about clinical trials
- Navigating transitioning from child to adult healthcare
- Getting digital resources such as computers
- Finding food assistance programs
- Navigating insurance questions
- Preparing for your first visit with a child neurologist
- ... and much more!

CNF is here to listen and assist you in navigating your journey as a caregiver of a child with a neurologic condition.

GET IN TOUCH WITH SOMEONE WHO CAN HELP

Contact our free, confidential Family Support Program at any time by filling out a form on our website and we will reach out to you directly. Scan the QR code with the camera app on your phone to access the link or go to the link listed below on your browser. You can email us at:
programs@childneurologyfoundation.org

Please note that CNF is not able to provide medical advice.
